NATURAL BARRIERS (1) PACIFIC OCEAN (2) ATACAMA DESERT (3) GLACIERS (4) ANDES MOUNTAINS

DONOSOGROUP. Donoso Group is representative of different oenological projects that rescue the character of the Maule valley from mountain range to coast, producing wines of worldwide recognition. With almost 30 years of experience in international markets, it is concerned to maintain the quality of its products from the 5 fields it handles, the selection of the grapes, the styles of winemaking that represent the character of the different Terroirs until reaching the bottle, recognizing our French heritage and mixing them with new technologies for deliver the best wine in the region.

MAULE VALLEY

CHARACTERISTICS

Thermal oscilation between day and night **1**

Different terroir between Andes Mountain and Pacific ocean **2**

Small and concentrate grapes **3**

Old vines **4**

The temperate Mediterranean climate has 4 to 5 month dry season with cold, moderately rainy winters and approximately 600 mm of precipitation annually.

OUR WINEMAKER FELIPE ORTIZ

Agronomist Enologist Engineer, scholar of the prestigious Association of Agronomist Engineers of Chile (ANIAE).

Felipe who has worked in France, USA, Australia and Chile, says the Maule Valley has a multiplicity of characters.

FELIPE ORTIZ

OENOLOGICAL PHILOSOPHY

Following high standards of quality and production, which drives us as a winemaking philosophy is the respect for the grape, that grows on long-lived vines. We make sure our wines pass through very little wood, with the goal of micro-oxygenate and enhance the evolution of them, without overwooding and giving an intense fruitiness.

This allows us to dispose of a wide range of wines, known for being fruity, elegant, aromatic and recognized for their qualities on a global scale.
